

**LITISCAPE**  
KNOW YOUR PATIENT, KNOW YOUR RISKS

*"Know your patient,  
know your risks."*

## Protect Yourself From Exploitation

Only 10% of malpractice suits have actual medical error associated with them, yet physicians suffer 100% of the time. *Don't be blind to high-liability situations!* Our revolutionary software provides a comprehensive patient risk analysis in under 60 seconds by pulling in real-time from thousands of public record databases in all 50 states. Over 1,200 risk factors are analyzed, weighed, and summarized in the four categories below:

### Litigation Risk

Including whether your patient has a history of taking legal action

### Financial Risk

Including healthcare and insurance fraud, extortion, bankruptcy and theft

### Criminal Risk

Be aware of the types of criminal activity your patient may have been involved in the past.

### Healthcare Factors

Including drug history, alcohol abuse, and high-stress events may help from a diagnostic and treatment perspective

## Save Big On Insurance!!

### Decreased claim risk = Discounted Insurance

We've partnered with several of the top insurance carriers in the nation, all A-rated companies, to provide physicians who are subscribed to our software with a significantly discounted malpractice insurance policy *and* general liability policy, saving our clients thousands!\*

\*Must apply for a new policy to qualify, discount insurance bundle not required to purchase the software

*"It has been 31 yrs and I still consider [the lawsuit] the single worst experience of my life - and I had done nothing wrong. With LitiscapE, countless physicians will be saved from having to endure the pain and humiliation that I did."*

-Dr. Stanley
